

GUIDANCE
ON HOW TO
CORRECTLY DONN
A GVS N3100
N99 MASK

ALWAYS SANITIZE YOUR HANDS BEFORE TOUCHING A MASK

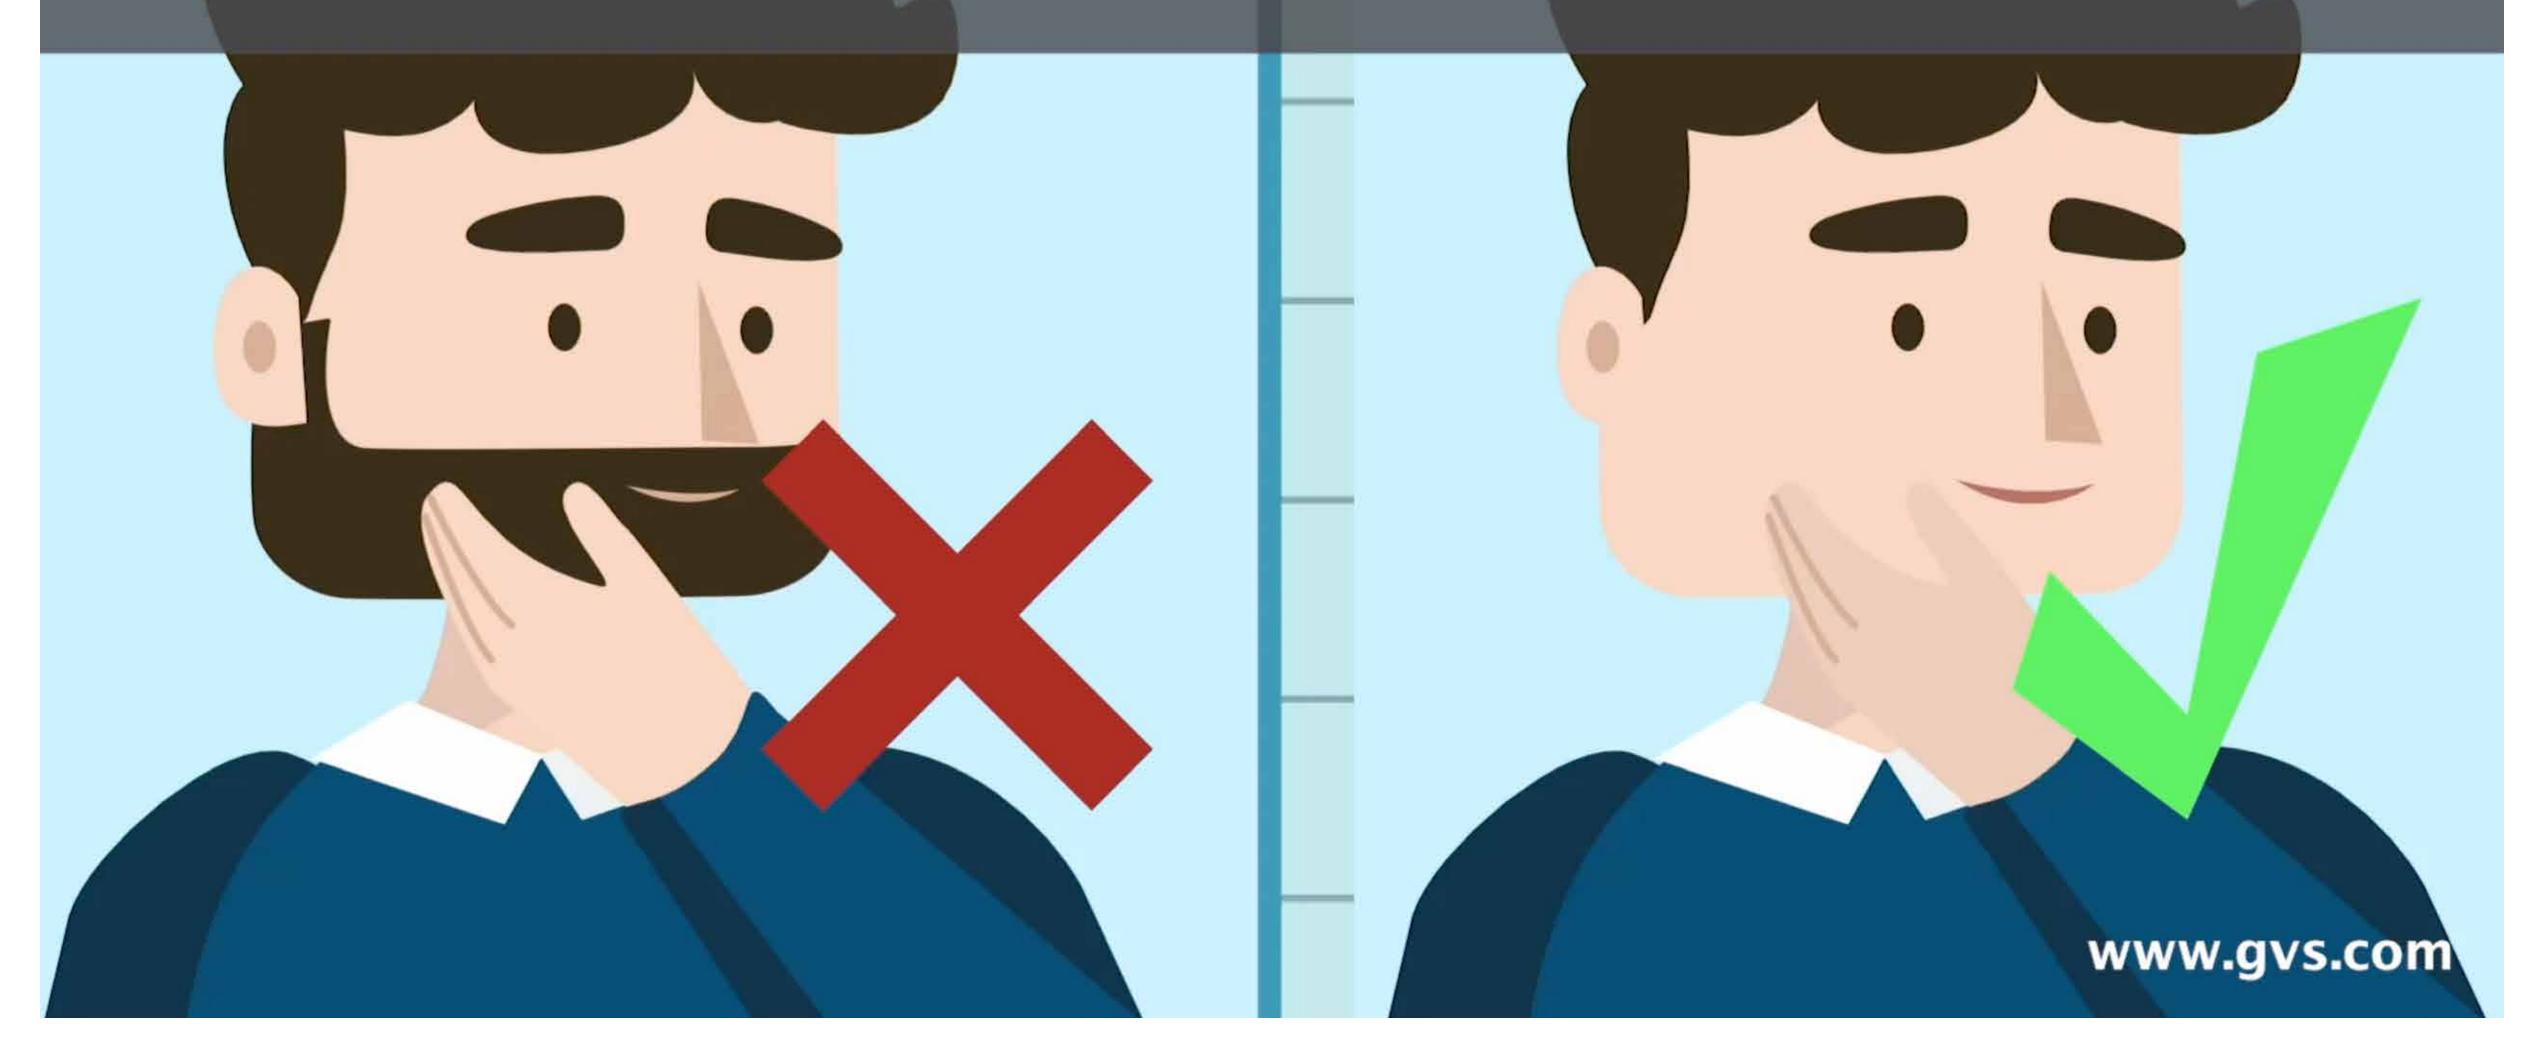

REMOVE THE MASK FROM ITS PACKAGING

ALWAYS CHECK THE MASK FOR DEFECTS

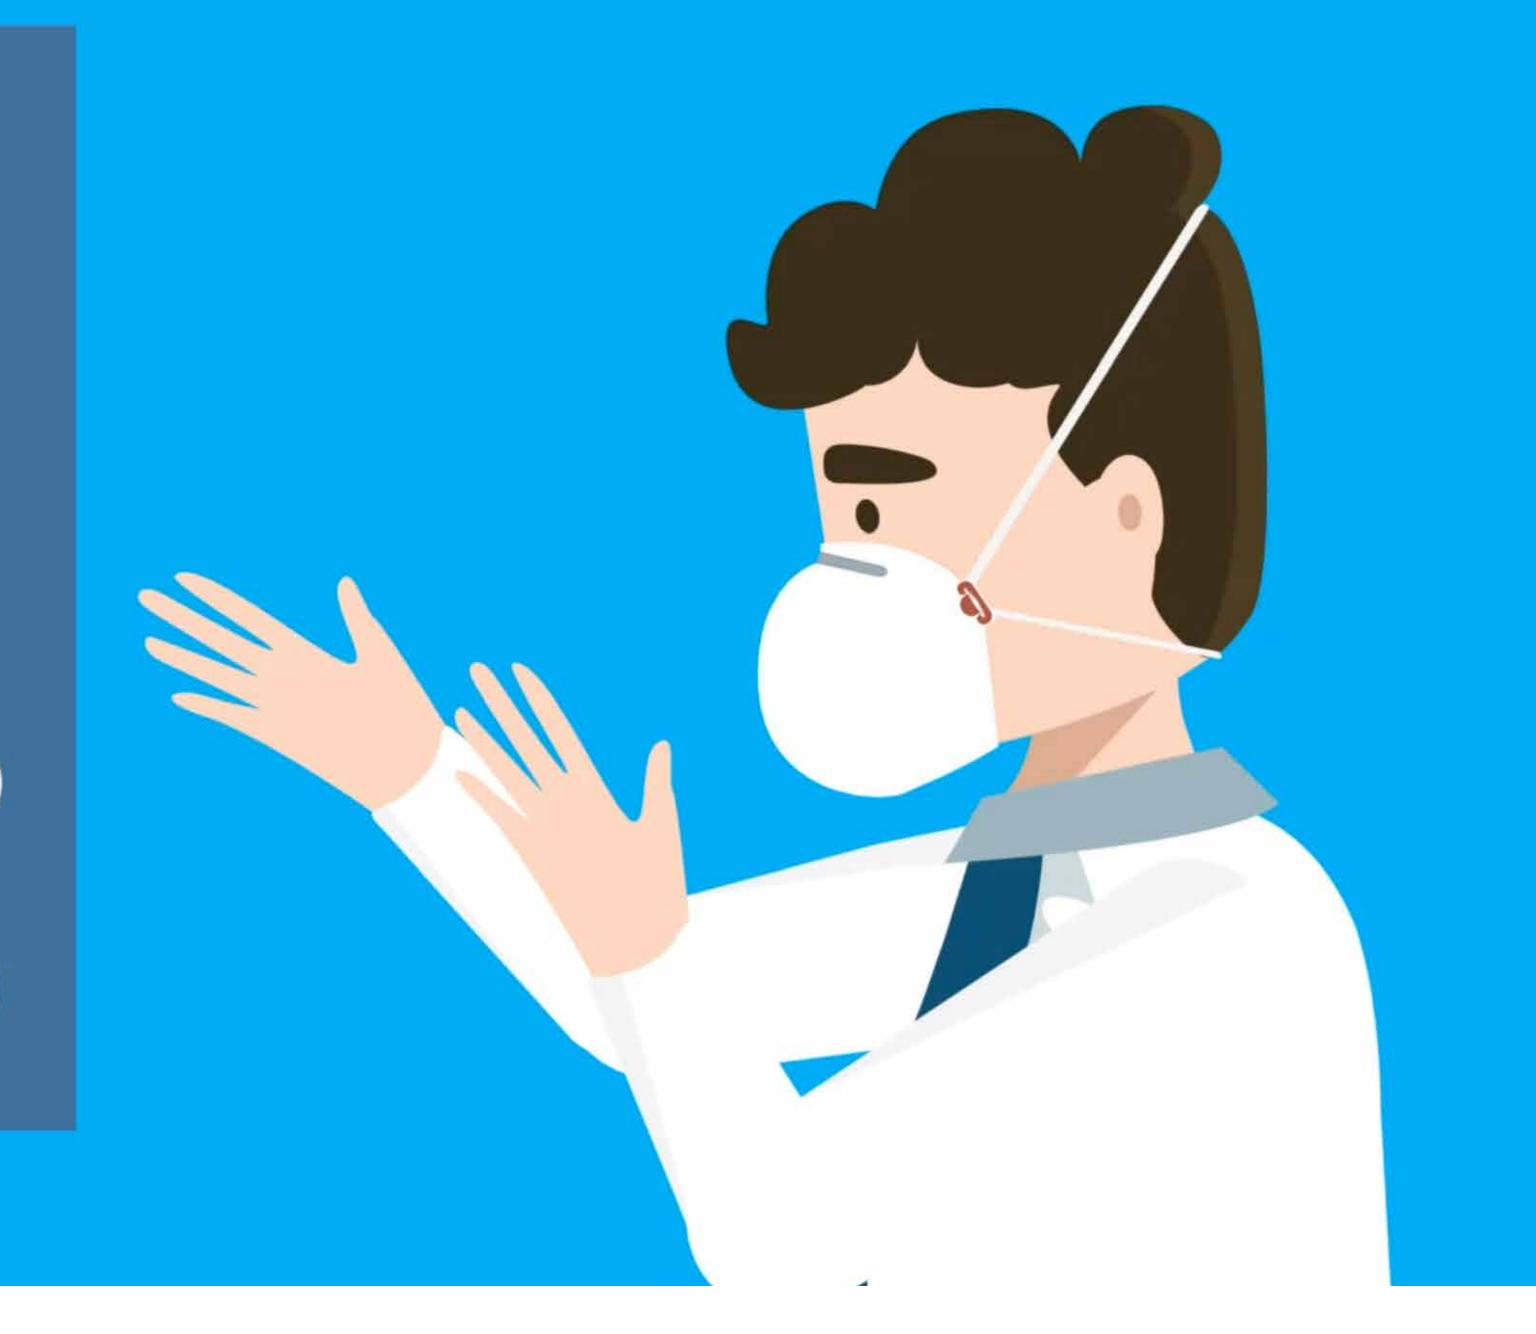

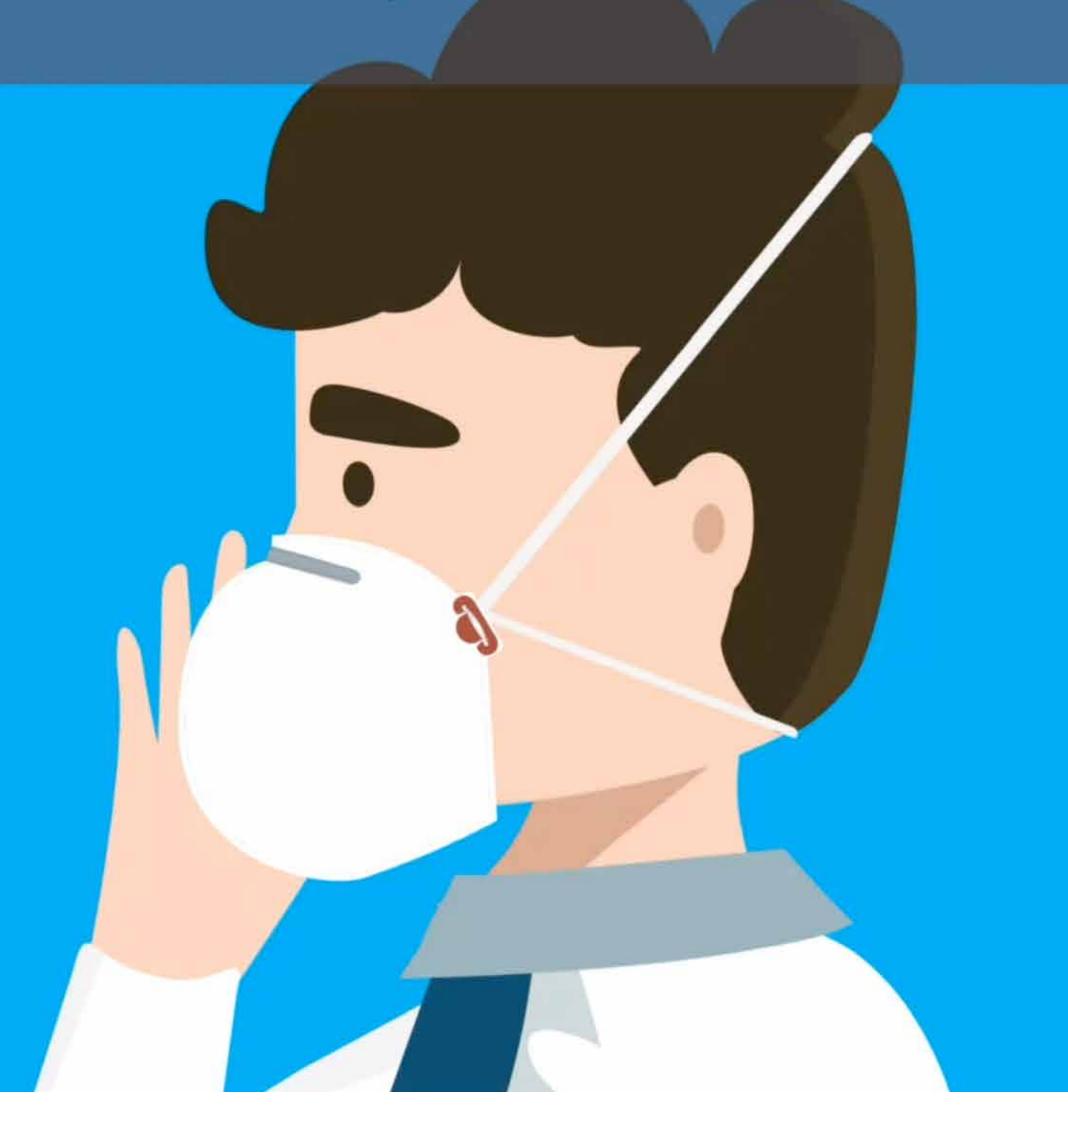

DONN THE MASK STARTING AT

YOUR CHIN,
AND THEN
STRETCH THE
STRAPS BEHIND

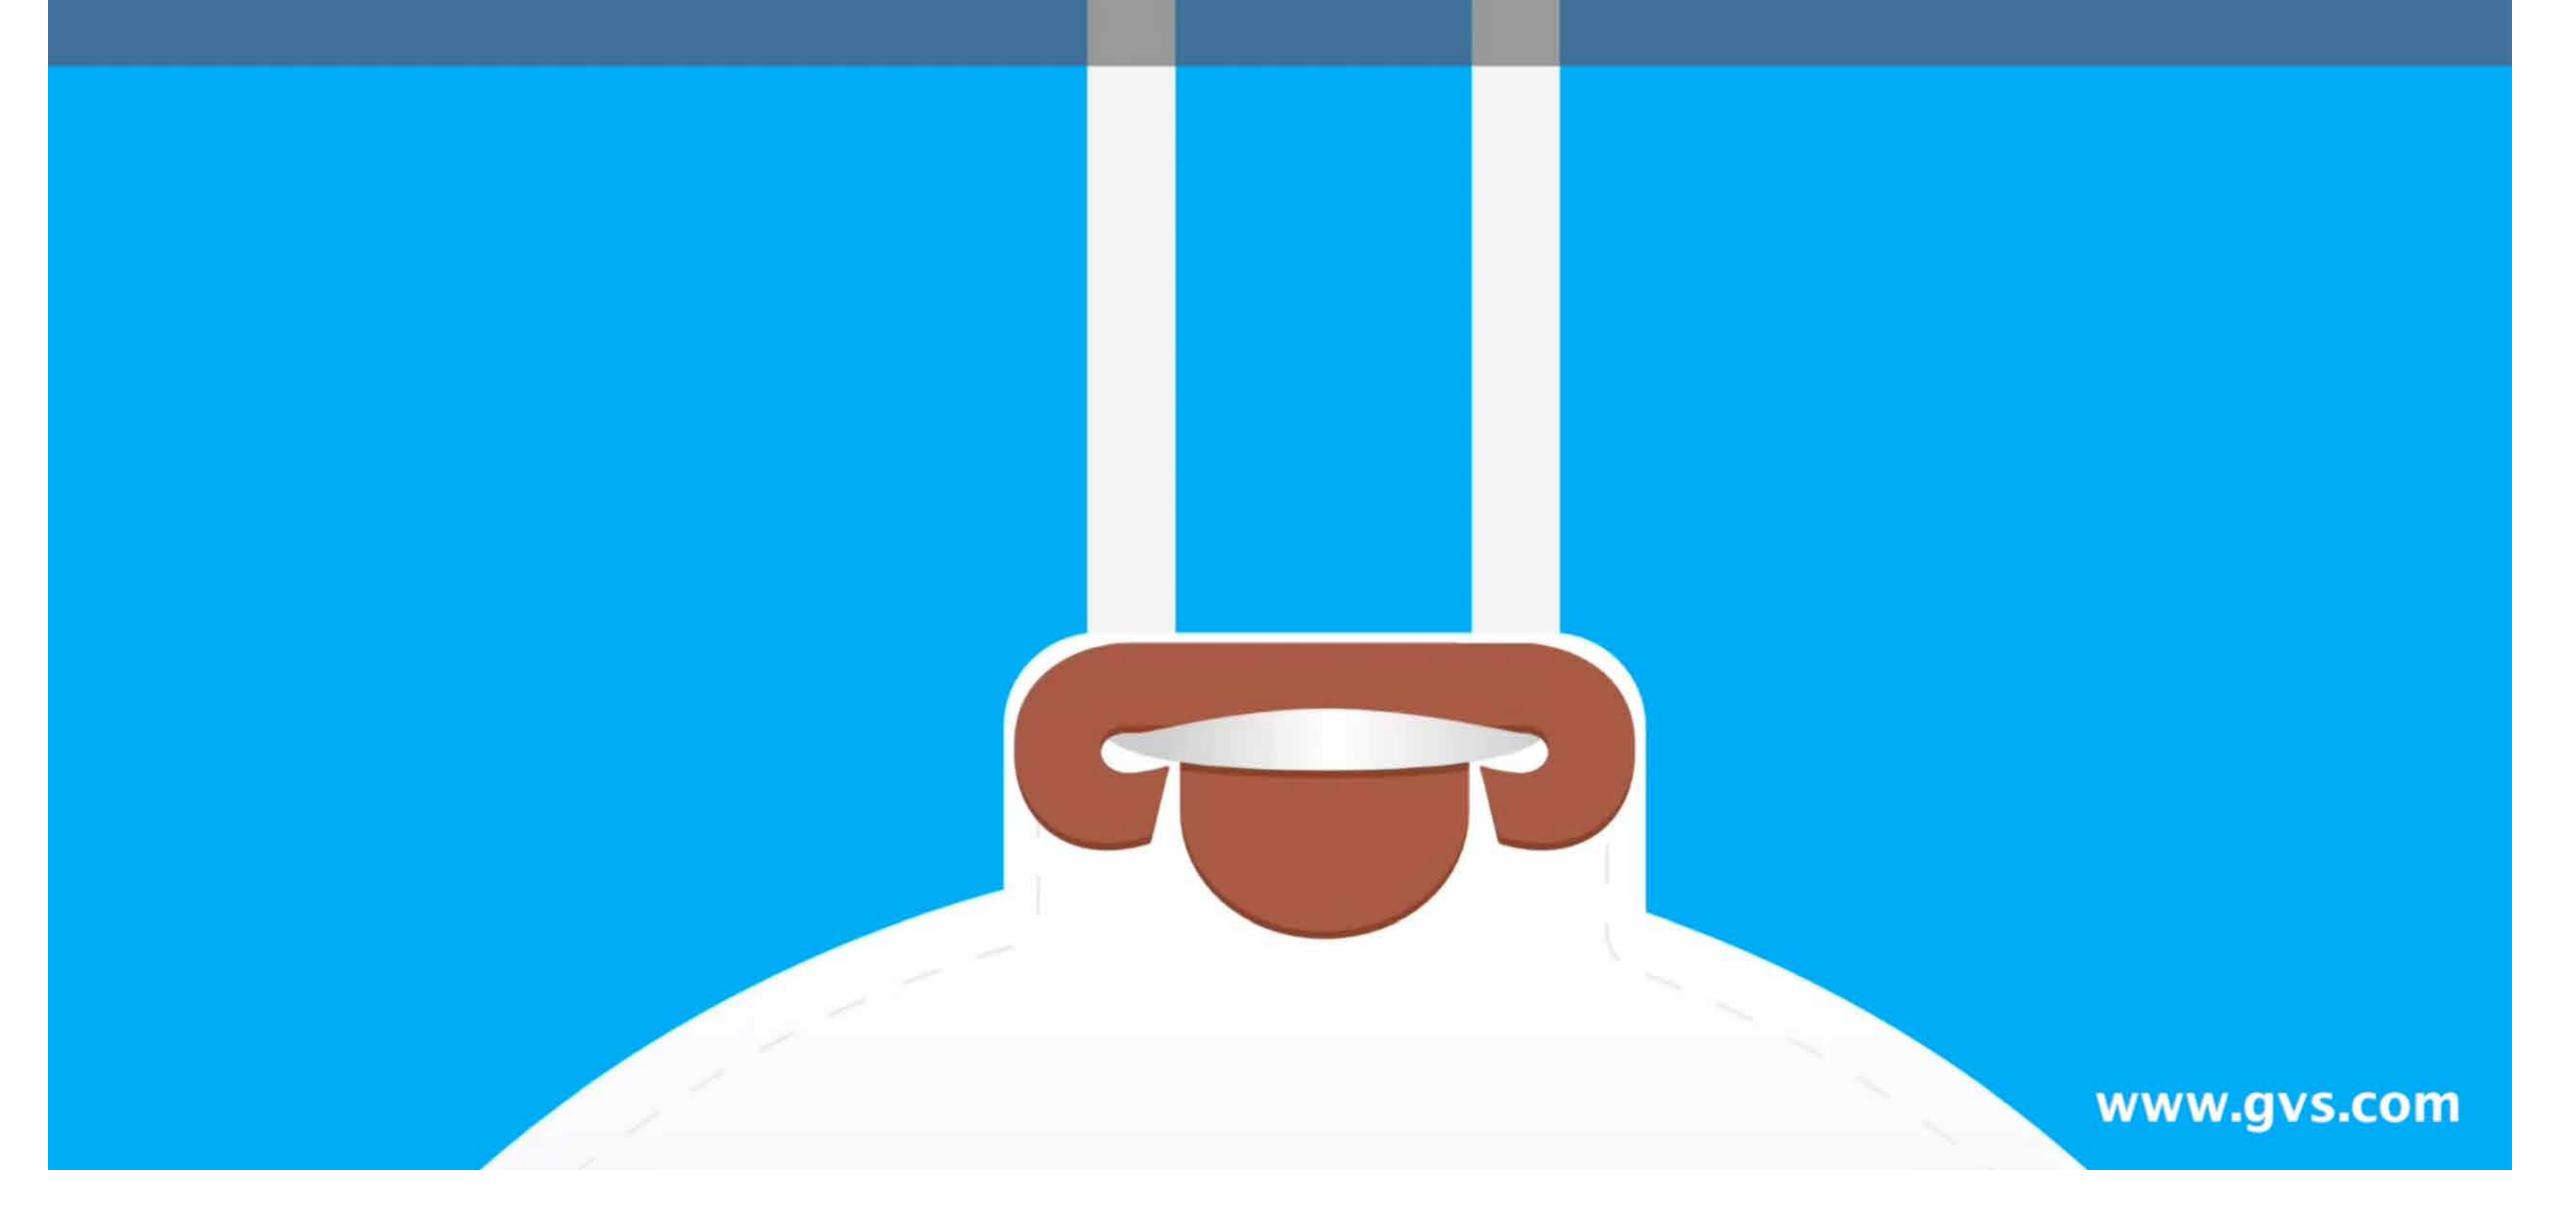

YOUR HEAD

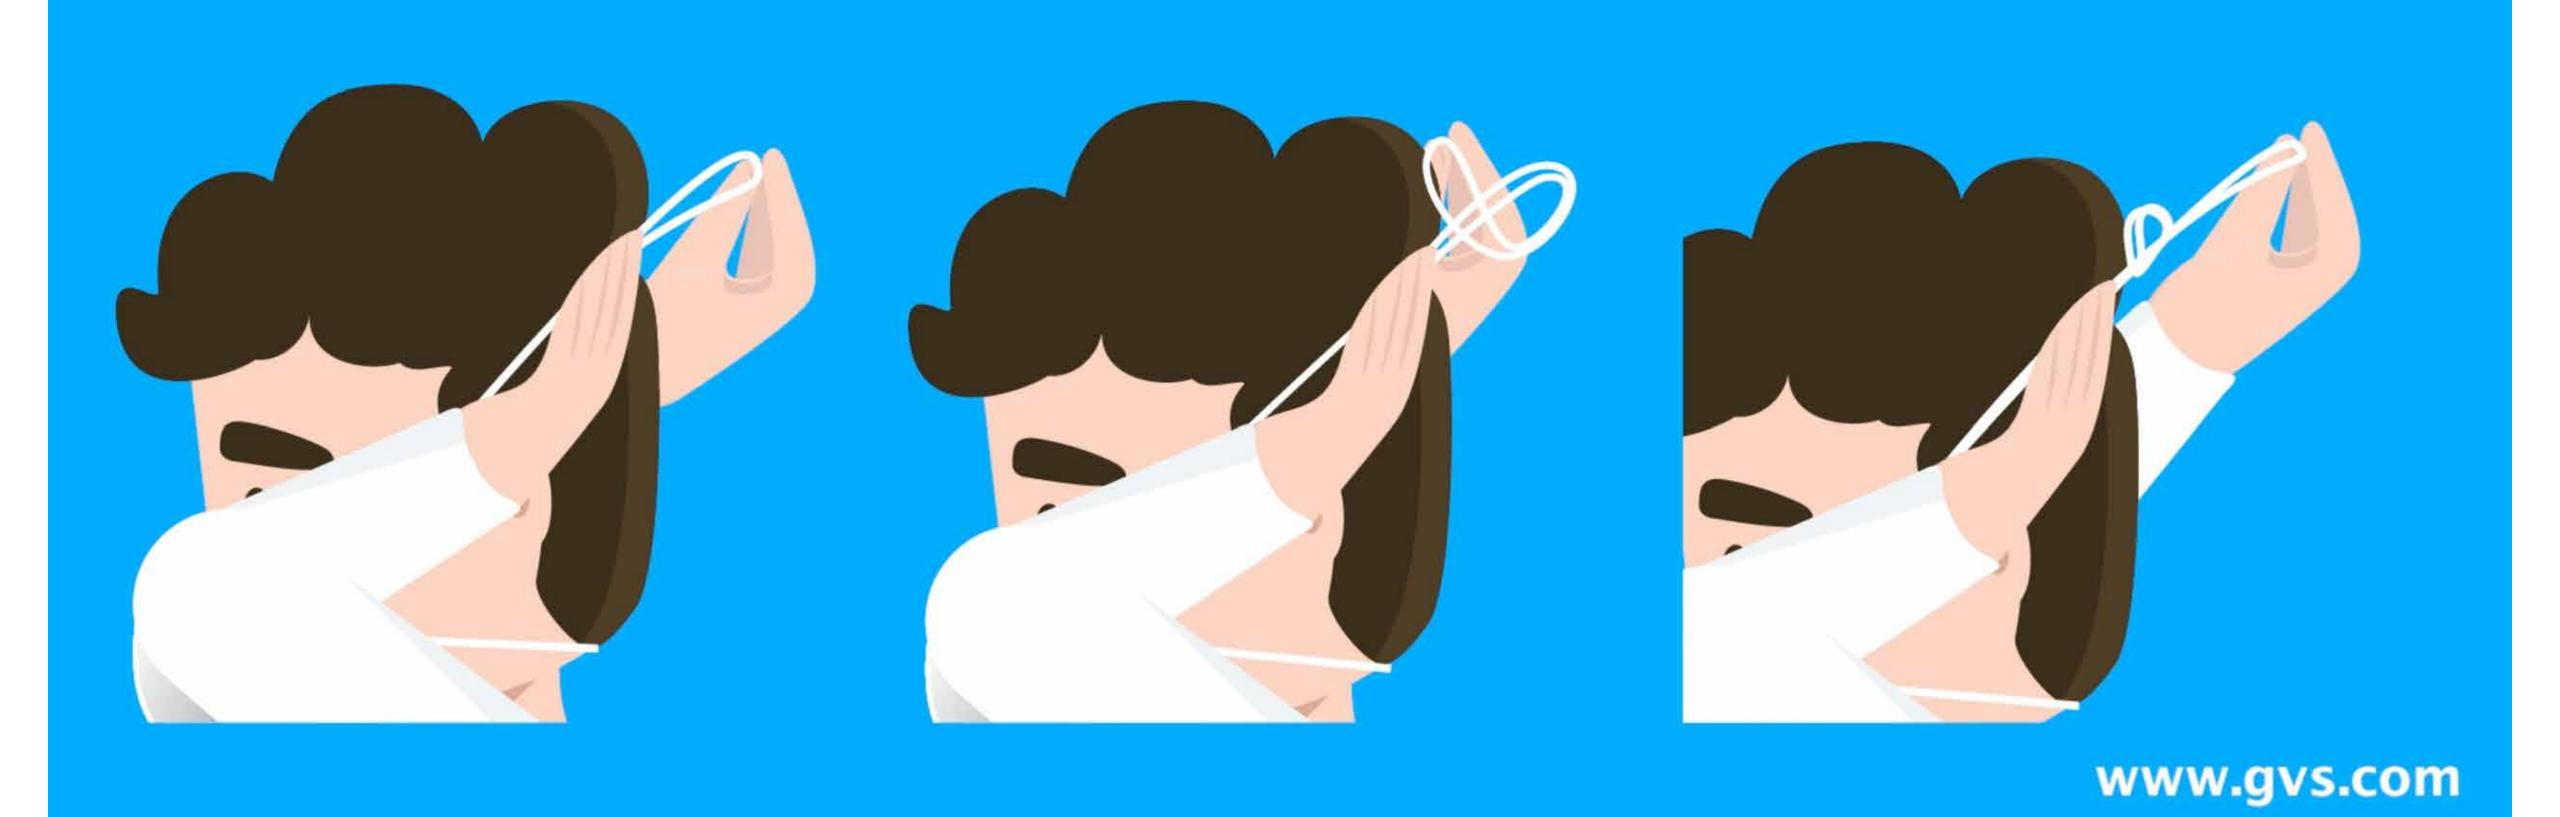

IT'S EXTREMELY **IMPORTANT** TO CORRECTLY **ADJUST** THE **ELASTIC STRAPS**, IN ORDER TO OBTAIN A **FIT**

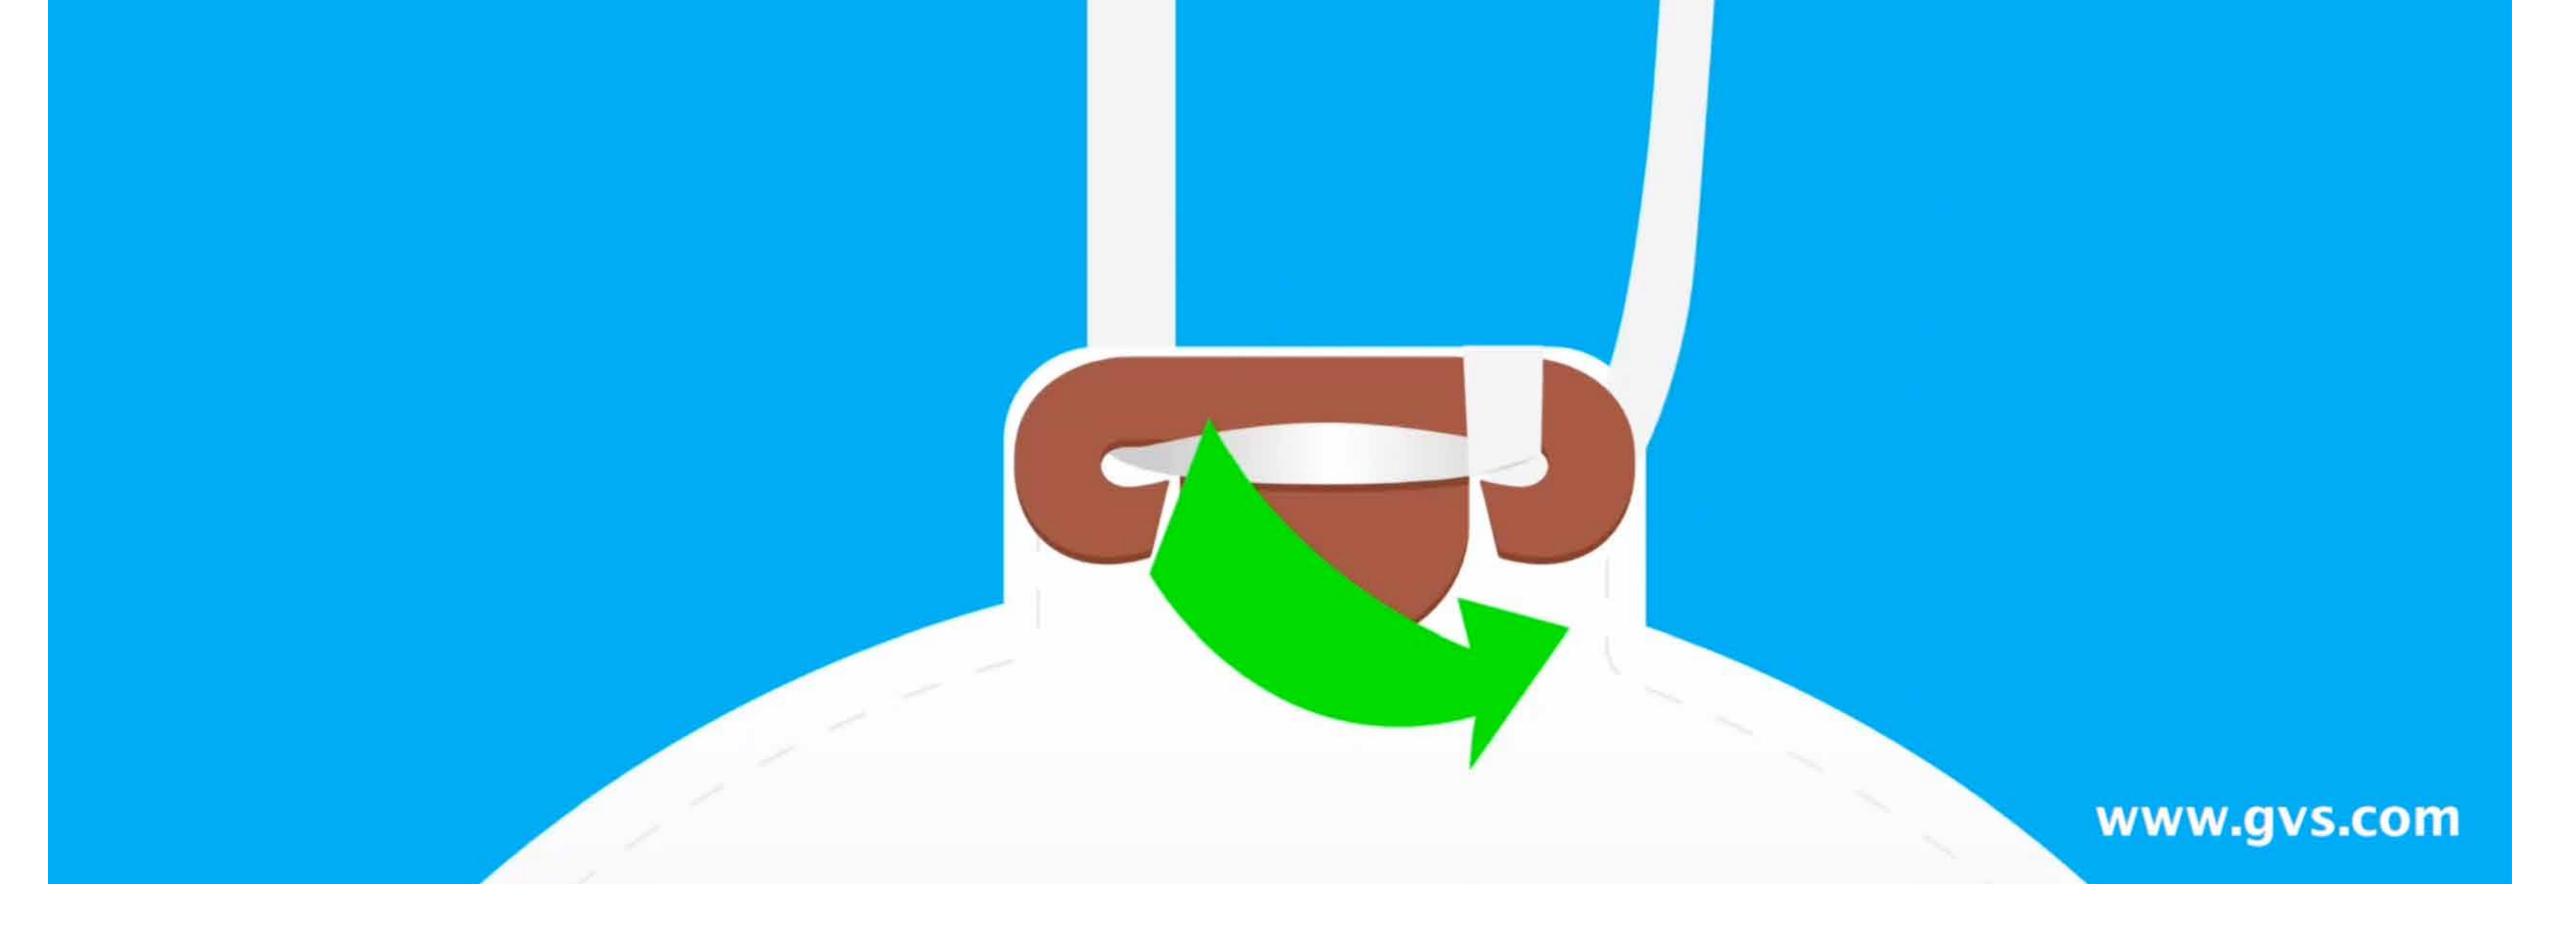

THERE ARE TWO WAYS OF ADJUSTING THE STRAPS

IF YOU NEED A LARGE ADJUSTMENT, WE SUGGEST CREATING A KNOT IN THE STRAPS

IF YOU NEED A SMALL ADJUSTMENT, WE SUGGEST TWISTING THE STRAPS AROUND THE SECURING CLIPS A FEW TIMES

IT'S IMPORTANT THAT ONE OF THE STRAPS IS ON THE NAPE OF THE NECK, AND THE OTHER ON YOUR CROWN

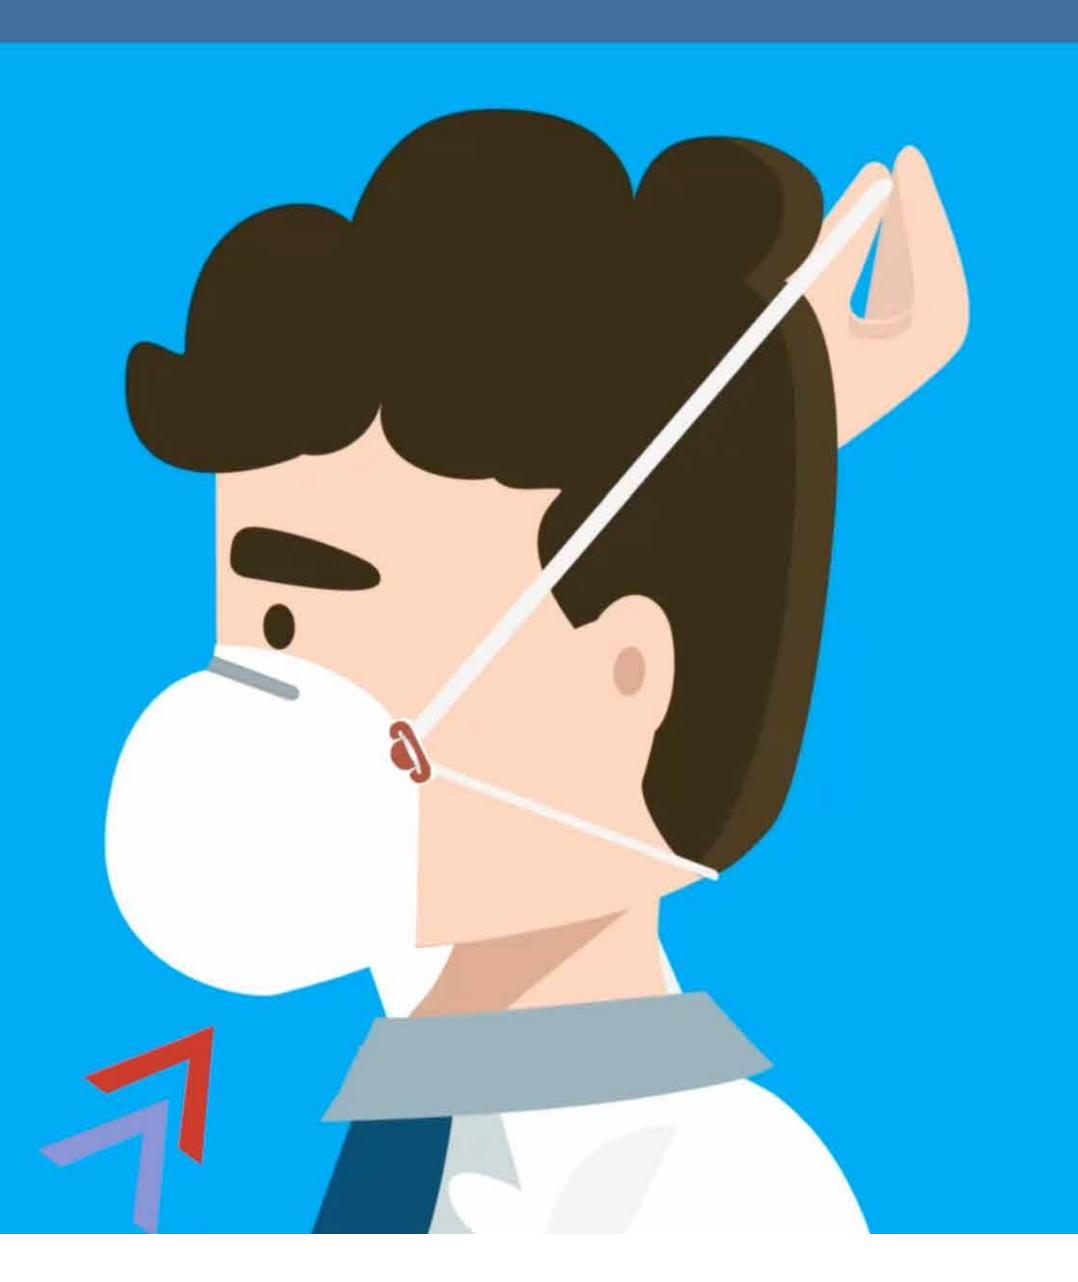

THE TOP STRAP MUST TRACE A STRAIGHT LINE BETWEEN THE TOP OF YOUR CROWN AND YOUR CHIN

BECAUSE THE
UPPER ELASTIC IS
RESPONSIBLE
FOR THE SEALING
OF THE CHIN

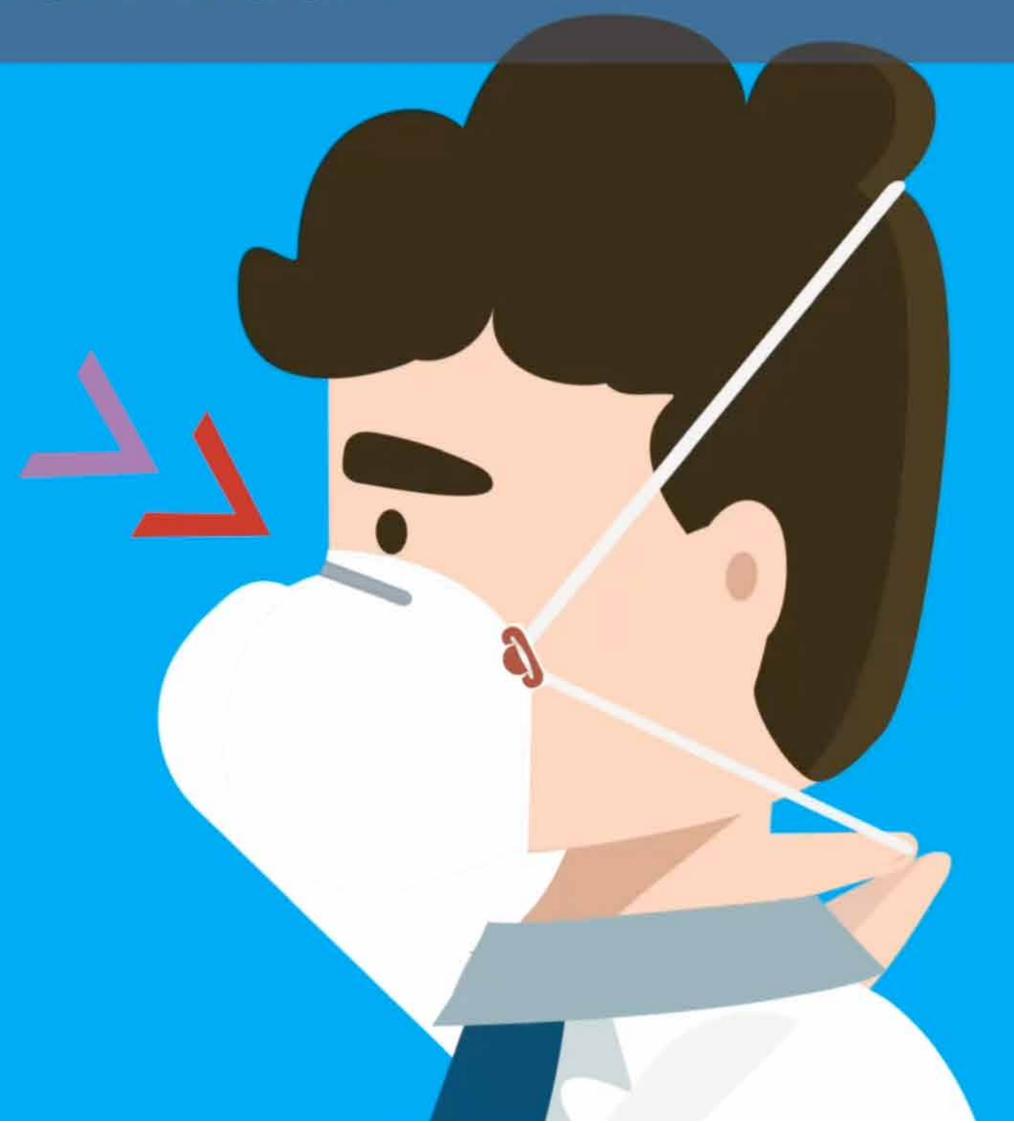

WHEN YOU TIGHTEN IT YOU MUST FEEL PRESSURE ON YOUR CHIN

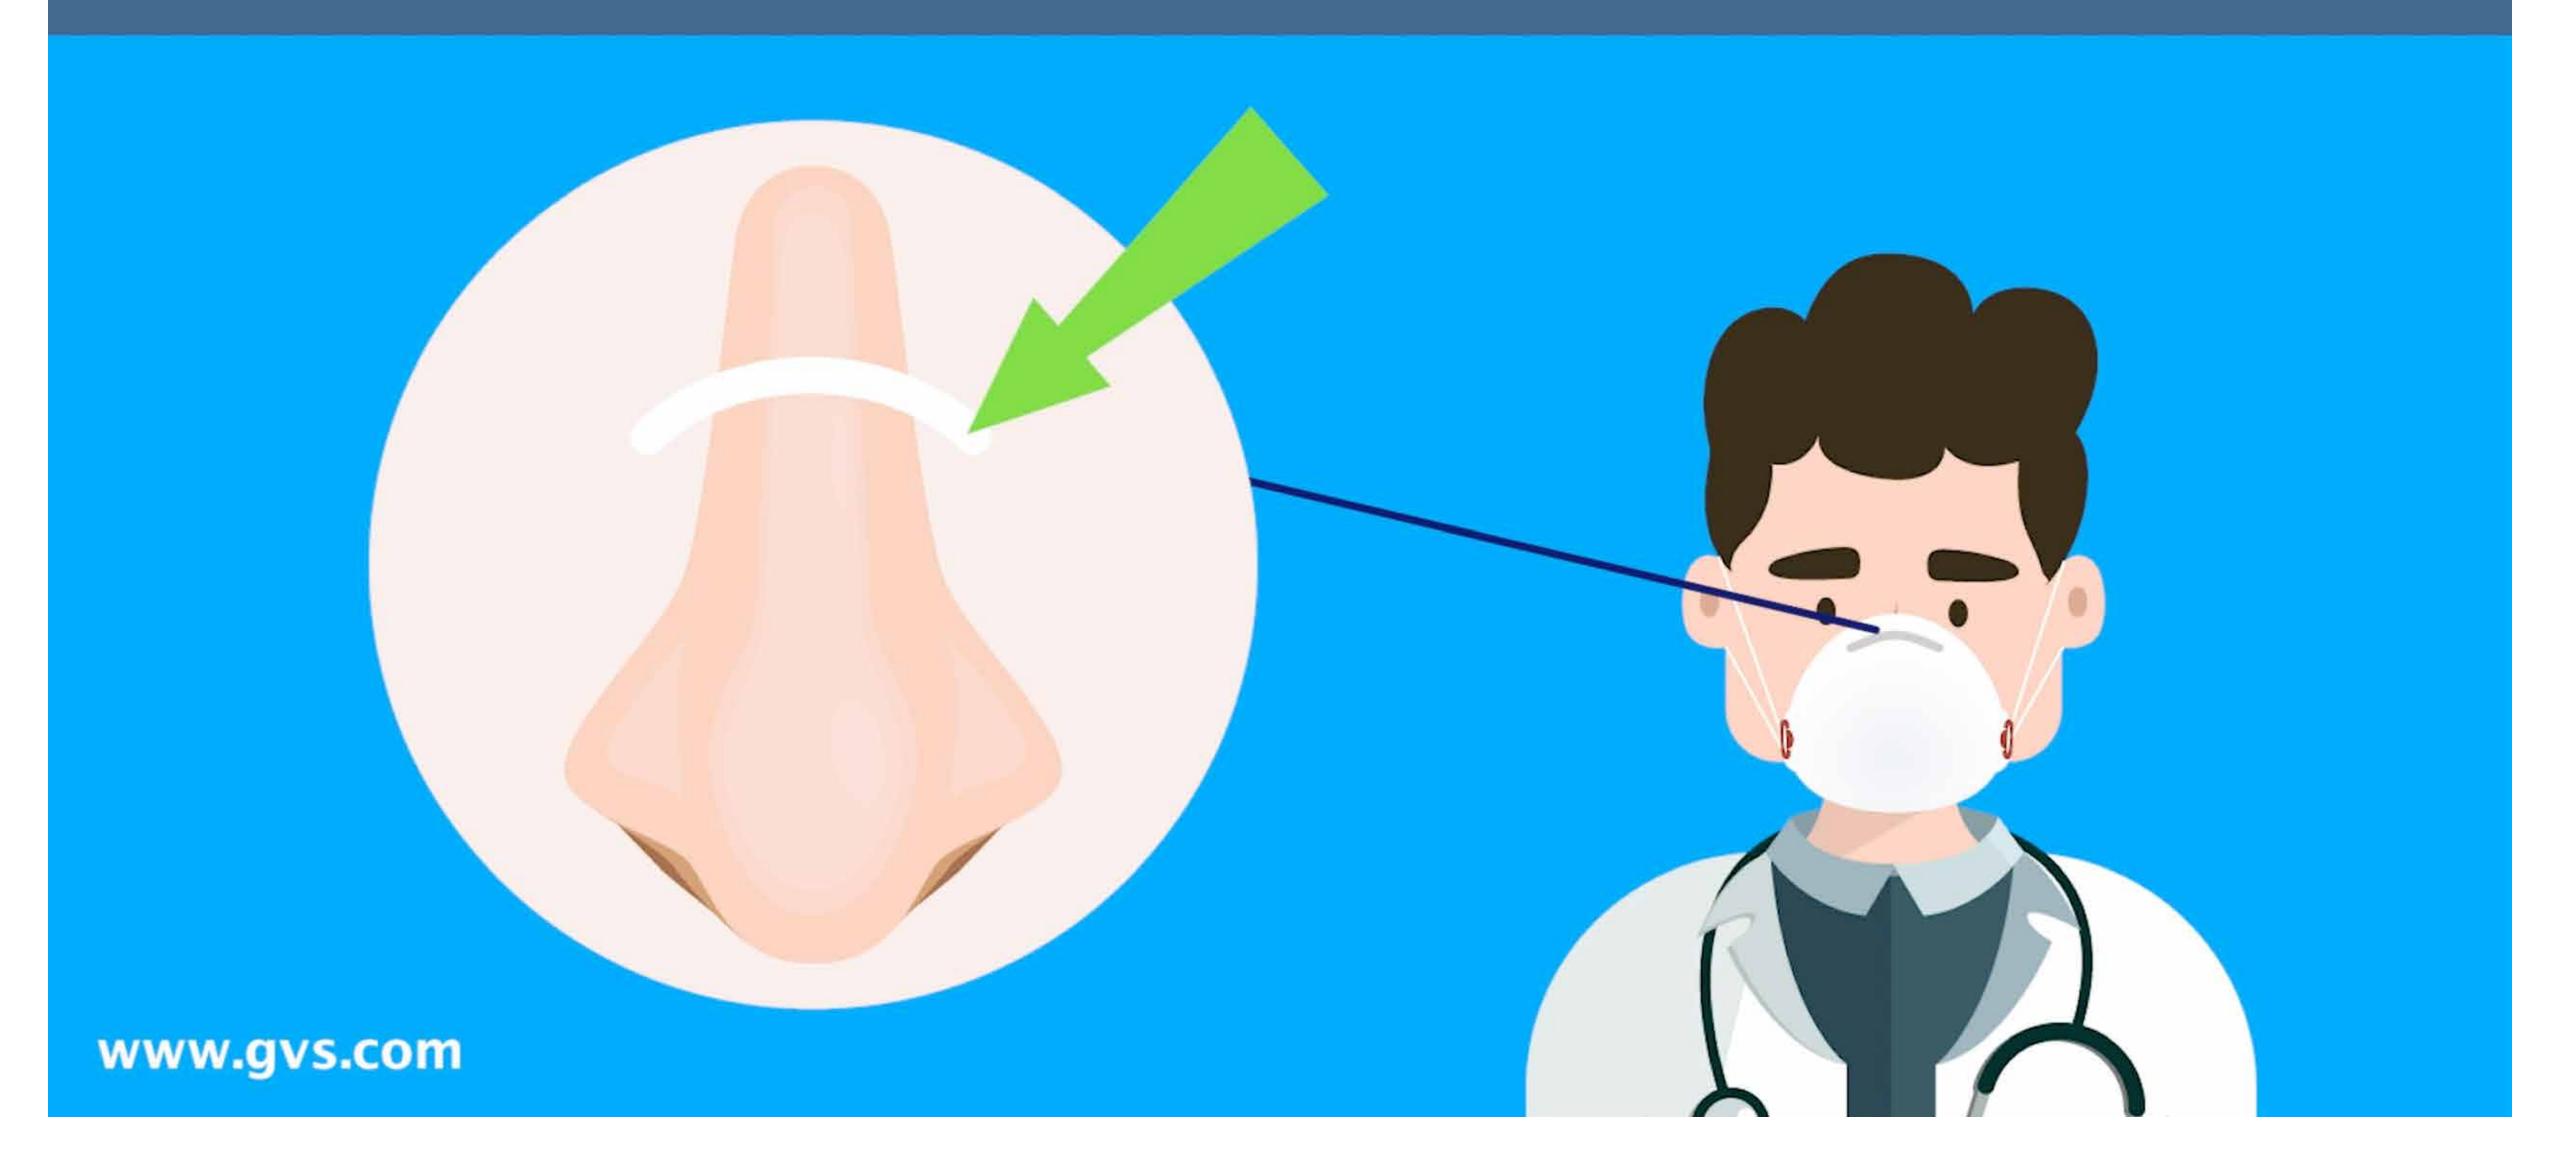

WHILE THE
LOWER ELASTIC
IS RESPONSIBLE
FOR THE UPPER
PART SEALING
THE NOSE

WHEN YOU TIGHTEN IT YOU MUST FEEL **PRESSURE** ON THE BRIDGE OF YOUR **NOSE**

PRESS THE METAL CLIP SMOOTHLY ACROSS THE BRIDGE OF THE NOSE TO ACHIEVE A GOOD FIT, AND TO REMOVE POSSIBLE LEAKS

PRESS THE METAL CLIP SMOOTHLY ACROSS THE BRIDGE OF THE NOSE TO ACHIEVE A GOOD FIT, AND TO REMOVE POSSIBLE LEAKS

TO DOFF THE MASK, ONLY USE THE STRAPS AND DON'T TOUCH THE BODY OF THE MASK

FOLLOW HOSPITAL INSTRUCTIONS TO DISPOSE OF YOUR MASK
